NOTES:

1. If you are not available to participate at the time you have been allocated please swap with another person.

2. Keith has been asked to let the Leaders know which part of scripture he will be doing each week and we will do our best to plan lessons on what he is doing. There are some verses in the Bible that can prove difficult to use with the children. When this happens we should use a different passage that we feel comfortable with.

3. Remember that there are plenty of copies of Spill the Beans in the Fub club cup you would like to use them on occasions. Write a date on the copy when you use it.

4. It is hoped that the assistants will take an active role in preparing craft material for other activities.

5. It is important that we have all the resources we need to provide the children with the best experience we can. Let me know your thoughts on additional resources.
